### DETAILED ACTION

1. Amendment and response filed by applicants dated April 30, 2004 have been entered and considered carefully. Claims 27-29 have been canceled. Claims 24-26 are pending.

The rejection of claims 27-29 is now moot in view of the cancellation.

2. The argument presented by applicants is that the process claims 24-26 using an novel and unobvious starting material the methane sulfonate of paroxetine should be allowable in view of the guidelines set forth in *In re Ochiai* 37 USPQ2d 1127. Especially, the unobviousness and patentability of the starting material has been established in the parent application.

This argument is persuasive. It is recommended that a copy of the 132 declaration filed in the parent application be made available in this file.

3. *New Ground of Rejection*

Claims 24-26 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 7 of U.S. Patent No. 5,874,447. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims are drawn to a specific hydrochloride salt which has been generically claimed in claim 7 of the issued patent. The instant claims would be fully embraced by the issued claim, thus, is obviousness type double patenting.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground

provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).
